

Spring Meeting MolecularDiagnostics.be 2014
**The new ISO 15189:2012 version and molecular diagnostics:
manuscript review & discussion**

Friday June 13th, 2014
**Brussels conference centre Café Des Fiennes,
de Fiennesstraat 77 Rue de Fiennes, 1070 Anderlecht**

13u30: Welcome and coffee

14u00: Kick-off of discussion on the manuscript draft:

*'5 years' experience of ISO 15189 accreditation in Belgium in Molecular Diagnostics
Laboratories'*

16u45-17u00: general conclusion

The main goal of this meeting is to reach a consensus about the manuscript (in preparation for submission in Clinical Chemistry) that re-evaluates the guidelines that were published in 2011 on behalf of MD.be (Acta Clinica Belgica Raymaekers et al., 2011), based on the 5 years' experience with BELAC accreditation and the updated ISO norm version (15189:2012). We ask all participants to actively take part to the discussion. A draft version of the manuscript will be sent to you after registration. If you are willing to give comments on the manuscript and you are not able to attend the meeting, please feel free to ask the manuscript and send your comments by e-mail (lcnops@itg.be)

Please register online via www.moleculardiagnosics.be to receive the draft version of the manuscript.

You can distribute this e-mail to other people of your institute that are interested in this topic and are willing to participate in this discussion.

We look forward to meeting you on the 13th of June.
